

## ROAD LOGS FOR AUTO TRAVEL

Club Makes Route Cards  
of Principal Highways  
for Members' Use.

## PLAN MARKING SYSTEM

Tourist Bureau to Be Estab-  
lished by State Club for  
Small Initiation Fee.

With the opening of spring travel, the Oklahoma Automobile club is giving particular attention to the preparation of routing cards and to the accumulation of a valuable set of road logs for use of its members. Active work is also under way to secure plain and easily followed markers on the principal state and interstate highways. During the present month arrangements have been completed with J. S. Jackson of Jackson Map company of Kansas City for a very extensive system of loggers and marking of the principal highways. L. Bee Guthrey said yesterday.

Mr. Jackson began his work by beginning and arranging for the marking of the road from Tulsa to Fort Smith, Ark., by way of Bixby, Leonard, Stonebluff, Haskell, Muskogee, Warner, Gore, Vian, Sallisaw and Muldrow and the route cards for this road are now on the press and will be ready for delivery at an early date Mr. Guthrey said.

His next job was from Tulsa to Oklahoma City by way of Sapulpa, Kellyville, Bristow, Stroud and Chandler and this log has also been completed and will soon be ready for delivery in card form.

Work is now in progress upon the road from Tulsa to the northwest by way of Sand Springs, Keystone, Marford, Clinton, Yale, Stillwater, Ed, Alva and Dodge City and this will be followed by a logging trip

over the road to Kansas City by way of Collinsville, Nowata, Coffeyville, Cherryvale, Chanute and Iola, according to Mr. Guthrey.

Another card will be prepared of the Joplin and Springfield route by way of Claremore, Chelsea and Vinita, and still another for the Siliam Springs route by way of Claremore, Choteau, Locust Grove, Rose, Leech, Kan, and Flint and when these separate cards for each of the routes named have been completed, they will be supplemented by a companion card giving alternate routings in practically every instance, Guthrey said. For example the route to Fort Smith will also be logged by way of Broken Arrow and Coward, the route to the northwest will have a supplementary routing giving directions for the highway by way of Pawnee and Morrison, the route to Kansas City will have a supplement card showing the route by way of Skiatook, Bartlesville and Pawnee, and the route to Siliam Springs will be supplemented by data as to the route by way of Inola instead of Claremore and by way of Pryor and Salina instead of Choteau and Locust Grove.

With this work completed, and as the club gains in membership over the state the same system of marking and logging out of all principal cities will be followed up, thus making the touring information bureau of the state club a highly valuable asset to the members, Mr. Guthrey said.

All of these routing cards will be available free of charge to members of the club, but of course they will be supplied to all tourists carrying membership in the American Automobile association or in local clubs affiliated with the A. A. A.

The state club now has under advisement the question of establishing a touring bureau membership separate and distinct from the regular club membership, following a plan adopted by the St. Louis Automobile club and several other of the larger organizations and charging the tourist member a fee of \$2.00 for which he will be issued a tourist card entitling him to all tourist information from this club and all clubs affiliated with the American Automobile association. It is very probable that this class of membership will be open to those desiring to avail themselves of it during the early part of June.

## A Poor Practice

Purchasing eye waters, salves, etc., without advice from a specialist is a useless and, many times, dangerous practice. Foreign bodies in the eyes, or acute inflammation should be given attention by a physician. Blurred vision, headache or pains in and over the eyes can usually be relieved by proper lenses.

In case of discomfort or poor vision, call at our offices for advice.
